

What is the **Secret Formula** pro athletes use that makes them pro athletes?

Most of us simply use this formula:

Performance Required

Energy Level

= satisfactory execution of sport activity

■ Authentic jerseys, helmets, shorts

■ Soccer, lacrosse, hockey & major sports equipment

■ Camping, hiking equipment & MUCH MORE!

But the **secret of the pros...**

The best gear requires less energy for max performance. The pros bring their game with the best gear.

Performance Required = **best player**
Energy Level + **Best Gear**
